# **LORUS**

- World time function

CAL. NX11, NX14 (RM9 SERIES)

- Time in the 77 cities and regions around the world can be displayed. Among those 77 cities, the cities in some time zones with 30-minute offsets from UTC are included.
- "Home
- 24-hour stopwatch

The stopwatch can measure up to 23 hours, 59 minutes and 59 seconds in 1/100-second increments for the first 60 minutes and in 1-second increments thereafter. Countdown timer

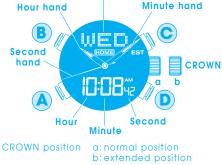

- The timer can be set up to 9 hours and 59 minutes in 1-minute increments. Regular alarm
- at the designated time
- The hourly time signal can also be set.
- Single-time alarm
- designated time and it is disengaged automatically. Illuminating light (Electroluminescent panel)
- The built-in electroluminescent backlight illuminates the display for approximately 3 seconds for easy viewing in darkness.
- **DISPLAYS AND CROWN OPERATION**

(Caliber NX11)

Day Minute hand

(analogue time setting)

(Caliber NX14) The caliber NX11 and NX14 have the different designs of digital displays, but their usages are the same. The following sections of this manual will provide

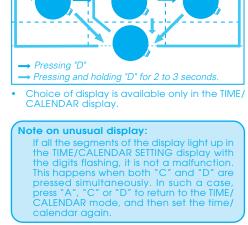

explanation by using the caliber NX11 as an example. With each press of "A," the mode in the digital TIME/CALENDAR

STOPWATCH

Pressing and holding "D" for 2 to 3 seconds in the TIME/CALENDAR mode will select the item shown at the top and bottom halves of the display. See the chart below.

Date Month

## ■ HOW TO SET THE TIME/CALENDAR The analogue and digital displays are separately illustrated in the following sections of this manual for the purpose of explanation.

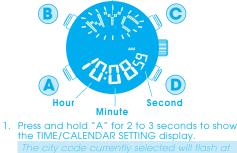

time signal.

ANALOGUE TIME SETTING Second hand Minute hand **Hour hand** 

DIGITAL TIME/CALENDAR SETTING City code

To set the hands more accurately, advance the minute hand four to five minutes ahead of the correct time, and then slowly move the hand back to the correct time.

Press "B" to select the item to be adjusted (flashing). City \*

- **CHARACTERISTICS** 3. Press "C" or "D" to set the flashing item. To set the city, select the city code representing the city which is in the same time zone as the city you are wearing this watch. For information on city codes and their time zones, refer to CITIES AND TIME DIFFERENCES. 1. Analogue & digital time displays Automatic calendar The calendar automatically adjusts for odd and even months including February of leap years up to 2050.
  - Press "A"
    - Press "A" to confirm the settings and return to the TIME/CALENDAR mode.
  - **NOTES** Setting the second

To reset the second digits to "00," press either "C" or "D" in accordance with a time signal while the second digits are flashing. If "C" or "D" is pressed while the second digits count any number between "30" and "59," one minute is added and the second digits are immediately reset to "00." Once the year, month and date have been set, the day of the week is automatically set.

12-/24-hour indication setting

# When the 12-hour indication is selected, "AM" indicator appears for the morning and "PM" indicator appears from the afternoon.

- When setting the hour digits in the 12-hour indication, check that the AM/PM is properly
- "HOME CITY" SETTING

This watch is equipped with the world time function which enables you to view the time in the 77 cities and regions around the world.

By presetting the "Home City," even if you set the watch to display the time of the place you are staying while traveling abroad, you can easily and conveniently reset the watch to display the time of your "Home City" after your return home. For details, refer to "RETURNING TO THE "HOME CITY" DISPLAY." City code

- Press "C" or "D" to select the city code which represents the city you wish to set as your
  - Home City
- Press both "C" and "D" at the same time
- Press "A" to confirm the setting and return to TIME/CALENDAR mode.

  If you need to set the time, follow the procedures from Step 2 in "DIGITAL TIME/CALENDAR SETTING."
- HOW TO USE THE WORLD TIME FUNCTION

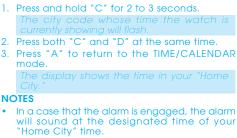

- Press "C" or "D" to select the city code whose local time you want to display on the watch.

  Press "A" to confirm the setting and return to the TIME/CALENDAR mode.
- In a case that the alarm is engaged, it will sound at the designated time of the currently selected city. If the watch is left unfouched with the city code flashing, it will automatically return to the TIME/CALENDAR mode in 1 to 2 minutes.
- DAYLIGHT SAVING TIME SETTING

- Press "A" to confirm the setting and return to the TIME/CALENDAR mode. While the daylight saving time mark appears on the display, the time is advanced by one hour in all the cities.
- Daylight saving time can be set even for cities and regions where daylight saving time is not actually adopted.
- In a case that the alarm is engaged, it will sound at the designated time of the current RETURNING TO THE "HOME CITY" DISPLAY

- The electroluminescent panel loses its luminance as the battery voltage gets lowered. Also, its luminance level decreases gradually with use. When the illuminating light becomes dim, replace the batteries with new ones. If the light remains dim after the batteries are replaced, have the electroluminescent panel replaced with a new one by the retailer from whom the watch was purchased. It will be replaced at cost.

display is illuminated.

malfunction ■ BATTERY CHANGE The battery SEIKO SR626SW (for analogue display) and SEIKO SR41W (for digital display), which power your watch, should last approximately 2 years. However, because they are inserted at the factory, the actual life of the batteries once in your possession may be less than 2 years.

While the illuminating light is used, the watch gives out a slight noise. However, this is not a

Be sure to replace the batteries to prevent any possible malfunction as soon as either of them runs down. To replace the batteries, we recommend taking the watch to a local watch repair shop.

- Note: 1. If the alarm is used for longer than 10 seconds a day and/or the illuminating light is used more than once for longer than 3 seconds a day, the battery life may be shorter than the abo specified period. 2. Even if either of the two batteries has run
- After the batteries are replaced with new ones, set the time/calendar and alarm and adjust the stopwatch hand position.

down, replace both of them with new ones.

using the watch, set the time, calendar including

Home City", and alarm.

LORUS NX11

 Necessary procedure after battery change After the batteries are replaced with new ones, or when an abnormal display (failing digits, etc.) appears, follow the procedures below to reset the built-in IC. The watch will resume its normal Press and hold buttons A, B, C and D at the same time for 2 to 3 seconds until the display becomes blank, then release all the buttons. The watch returns to its default setting, which is "12:00'00" a.m., Jan. 1st, 2005, SAT" with "UTC" selected as "Home City" and contrast level 5. Before start using the watch set the time calendar including
